## Resume

Over the past thirty five years of designing and specifying lighting systems for commercial accounts, national retail chains, hotels and casinos, I have seen lighting technology become an ever increasing complexity for management. With the growing demands to reduce energy usage and labor costs, I have been in the forefront of providing solutions for my clients that help contain this challenge.

My 35 years in the lighting profession has given me a breadth of experience rarely equaled. This is substantiated by my pioneering of low voltage lighting over twenty-five years ago, with applications both in architecture and landscape, to research and development of systems and equipment for major lighting manufacturers.

Having began my career in product development and introduction of low voltage miniature lighting equipment, the ongoing evolution of the LED opens up new opportunities for miniaturization of light sources which are more efficient.

*SINCE THIS PROCESS HAS LED TO COUNTLESS MISAPPLICATION OF THE LED, I HAVE DESIGNED AN EDUCATIONAL PROGRAM FOR LIGHTING PROFESSIONALS (DESIGNERS, ARCHITECTS, ENGINEERS, SALES PERSONNEL AND EDUCATIONAL ORGANIZATIONS) WHICH WILL PROVIDE THE KNOWLEDGE TO INSURE THE BEST APPLICATION OF THIS NEW TECHNOLOGY.....THE LED.*

## QUALIFICATIONS

### Professional Societies:

#### Illuminating Engineering Society

Board of Managers - Golden Gate Section  
Past Regional Vice President  
South Pacific Coast Region - 2 Years  
Finance Committee - IESNA - New York  
Energy Committee member - IES/California Energy Commission  
Casino Lighting Committee - IES Chairman

# ELWYN GEE

## Education:

High School San Pasqual Academy, San Pasqual, CA.  
College San Bernardino Valley College, San Bernardino, CA.  
University of California Riverside, CA.

## Study Courses:

Business Administration, Electrical Engineering. Psychology  
Illumination Engineering, Interior Design

## Lighting Services Offered:

Design: Interior-Exterior & Product Development  
Control System Design & Energy Studies for Capital, Maintenance & Operation  
Expert Witness

## Marketing:

Regional and National sales force Lighting Marketing Programs with personnel  
Training & development.
